

Part 2: the W.B.

Walter Benjamin "aura" aura (aura (aura)) aura

All artists know the tricks by now

What is the original of this poem?

If the postcards it is written on are lost, is it lost?

What if one of them is sent as mail, and then burned

In a California wildfire?

The scans can't be "it" they are perfectly reproducible

Typing them as text in a file can't be it the context of postcard is lost

Museums live off this bullshit
