

Part 3; a rest in power

while I was writing  
this I was alerted  
two people of the Last  
Generation threw a  
black substance over  
Klimt's Death and Life  
they said new oil and  
gas drilling is a death  
sentence for humanity

the museum said the  
painting and ~~original~~  
frame were undamaged  
but "the damage to the  
glass and the safety  
frame as well as to the  
wall and floor is evident  
and significant"  
what is the right frame  
what is the death the life  
the ending of the sentence
