

DIRECTIVES FROM YOUR CHAIRMAN

**The moral paradigm created outside managerial ranks
Controls each randomly selected business model.
Force short angles to justify solidity
in the face of boiling ideals.
Take heart in a manifested periphery
despite the whine of cyclical wonder.
Invest your extraneous assets
At a time and in a place undisclosed.
Relaxation will be molded and patterned on unused energies
after excess has broken boredom's hold.
Reaching out to grasp the straws of indifference
Can only be accomplished within the unconscious.
Revamp, Rebuild then indulge introspection .
Duty always pales beyond the experience of an uncharted past.
Never fear wide ranging action taken for elimination
Even when you don't profit by inattention to procedure.
Need is irrelevant after the project inception.
No matter how appropriate the time or place
Success can not be built
within the range of a high yield attitude.
The rolling of several strategies into a blend
Will provide bitter results both positive and negative.
Every equation utilized to formulate a flexible structure
Is calculated by distinct loss of corporate mass.
Distant efforts no matter how resolute
are but short factions of self doubt.**
