

Sex , Drugs, Rock & Roll

The obsessions of youth.
Sex, Drugs, Rock&Roll
these unbridled cravings
drive the endless quest for pleasure

Ride on the super special, oh so illegal “street high”;
Flow along the pulsing tones of decadent dance tunes
from night, to night, to night
Then grasp the stronger, longer physical ecstasy of
fulfillment
with someone special or not.

Never needing to say NO to anything
No worries, No responsibilities-- only PLEASURE
for the body, the heart, the soul
Until
somewhere, someplace, some point in time
Life directs --- pleasure be cast aside
for purpose, for goals, for a future

which is all too soon eclipsed
by time gone by
Now the Sex is spare or fleeting; even gone.

Drugs purposed to soothe, support, maintain
a body as it wanes.

But Ah – The good old Rock & Roll
Brings the memories we can't control,
of the Pleasures, from way back when.
